1.0 APPENDIX A: COMMERCIAL VEHICLE SURVEY QUESTIONNAIRE AND SCREENSHOTS

1.1 ESTABLISHMENT SURVEY

The San Diego Association of Governments (SANDAG) has partnered with ETC Institute to conduct a transportation survey of employers in the San Diego area. Please takes 5 minutes to complete this survey. Your responses will remain anonymous. The information you provide will only be used to help SANDAG update transportation models that are used to predict future needs in the region.

You may complete the survey by returning it in the postage-paid envelope that was provided, or you can complete it on-line by going to [SurveyURLhere](#). **Thank you in advance for your support of this important effort!**

PART 1: General Information About Your Organization

1. How would you BEST describe the type of activities your organization does at this location?

- | | |
|--|---|
| <input type="checkbox"/> (01) Agriculture/Mining | <input type="checkbox"/> (08) Information/Finance/Real Estate/Professional services |
| <input type="checkbox"/> (02) Manufacturing | <input type="checkbox"/> (09) Education/Government/Other Public services |
| <input type="checkbox"/> (03) Industrial/Utilities | <input type="checkbox"/> (10) Medical/Health Services |
| <input type="checkbox"/> (04) Retail | <input type="checkbox"/> (11) Leisure/Accommodations and Food |
| <input type="checkbox"/> (05) Wholesale | <input type="checkbox"/> (12) Other (please describe): _____ |
| <input type="checkbox"/> (06) Construction | |
| <input type="checkbox"/> (07) Transportation | |

2. How many FULL and PART-TIME employees do you have at the location where you work? If your organization has multiple locations, just answer for the location where you work (or to which you are assigned if you work remotely). Enter "0" if none.

How many FULL-TIME employees? _____

How many PART-TIME employees? _____

3. On a typical weekday (Monday-Friday), how many total employees (full & part-time) do you have working at this location? _____ employees

4. Approximately, how many of your employees work at home at least 1 day per week? _____ employees

5. Does your organization use TNC's (Transport Network Companies) such as Uber, UberEATS, Lyft, Doordash, etc. to deliver company goods and services to your customers?

☐ (1) Yes: On a typical work day, how many deliveries are made by TNC's for your organization? _____

☐ (2) No

6. How many vehicles owned or leased by your organization are equipped with toll transponders? If your organization has multiple locations, just answer for the location where you work (or to which you are

assigned if you work remotely)

Vehicles Owned/Leased by your organization with Toll Transponders: _____

PART 2: Deliveries TO Your Location

7. How many vehicles deliver cargo, packages, meals, or other services **TO** the location where your organization is located on an average weekday? This would include food deliveries (Uber Eats/DoorDash), Parcel deliveries (FedEx, UPS), U.S. postal deliveries, freight/cargo deliveries, etc. If your organization has multiple locations, just answer for the location where you work (or to which you are assigned if you work remotely). Enter "0" if none.

_____ vehicles

Answer Q7a-d only if your answer to Q7 was greater than "0".

7a. Of these, how many are passenger cars, sports utility vehicles, vans, or pickup trucks? _____

7b. Of these, how many are single unit vehicles? _____

7c. Of these, how many are combo units (tractor/trailers)? _____

7d. Approximately what percentage of these vehicles COME FROM each of the following types of facilities?

_____ % from Warehouses

_____ % from Ports/Airports/Terminals (intermodal, truck)

_____ % from Manufacturing Facilities

_____ % from Retail Outlets, including restaurants

_____ % from Service Businesses

_____ % from Parcel/Postal Delivery Businesses/Organizations

_____ % Other types of organizations (please describe: _____)

_____ 100 % TOTAL (Please be sure the total equals 100%)

PART 3: Shipments FROM Your Location

8. How many vehicles deliver cargo, packages, meals, or other services **FROM** the location where your organization is located on an average weekday? This would include food deliveries, Parcel deliveries, postal deliveries, freight/cargo deliveries, etc. If your organization has multiple locations, just answer for the location where you work (or to which you are assigned if you work remotely). Enter "0" is none.

_____ vehicles

Answer Q8a-d only if your answer to Q8 was greater than "0".

8a. Of these, how many are passenger cars, sports utility vehicles, vans or pickup trucks? _____

8b. Of these, how many are single unit vehicles? _____

8c. Of these, how many are combo units (tractor/trailers)? _____

8d. Approximately what percentage of these vehicles Go To each of the following types of facilities?

- _____ % to Warehouses
- _____ % to Ports/Airports/Terminals (intermodal, truck)
- _____ % to Manufacturing Facilities
- _____ % to Retail Outlets, including restaurants
- _____ % to Service Businesses
- _____ % to Parcel/Postal Delivery Businesses/Organizations
- _____ % Other types of organizations (please describe: _____)
- _____ **100% TOTAL (Please be sure the total equals 100%)**

PART 4: Vehicle Usage by Your Organization and Your Employees

9. Does your organization own or lease any vehicles (cars, vans, trucks, or large cargo/freight vehicles)?
____(1) Yes ____ (2) No
10. Do any of your employees use their personal vehicle for work-related business while working for your organization?
____(1) Yes ____ (2) No

If you answered YES to Q9 or Q10, please answer the Q11 and Q12.

If you answered NO to both Q9 and Q10, go to Part 5, Q13.

11. How many vehicles are owned or leased by your organization at the address where you work? If your organization has multiple locations, just answer for the location where you work (or to which you are assigned if you work remotely)

Vehicles Owned/Leased by my company at the address where I work: _____ vehicles

11a. Of these, how many vehicles are:

_____ Passenger cars or sport utility vehicles

_____ Pickup trucks

_____ Vans

_____ Single unit vehicles

_____ Combo unit/tractor-trailers

_____ Other vehicles used for service or other business purposes

12. How many other vehicles (personal or other) does your company use for business-related purposes that are

Final SANDAG 2022 Commercial Vehicle Survey Appendix

NOT owned or leased by your company? This would include personal vehicles used by employees for business-related purposes.

Vehicles **NOT** Owned/Leased by my company at the address where I work: _____ vehicles

12a. Of these, how many vehicles are:

_____ Passenger cars or sport utility vehicles

_____ Pickup trucks

_____ Vans

_____ Single unit vehicles

_____ Combo unit/tractor-trailers

_____ Other vehicles used for service or other business purposes

PART 5: Address Confirmation

13. To help us ensure we have good representation from all areas of San Diego County, please provide the name of your employer and address of the location for which you answered the questions in this survey.

Organization Name: _____

Address: _____

City: _____ State: CA Zip: _____

OPTIONAL TRAVEL DIARY

If your organization uses vehicles for commercial purposes that are owned by your company or its employees, we'd like you to consider participating in a follow-up survey that would involve providing travel information for one or more of these vehicles for 24-hour period.

The effort is easy, and ETC Institute will compensate you and other vehicle drivers up to \$50 for participating. If you'd be willing to participate and are interested in learning more, please provide your contact information below.

Your name: _____ Phone: _____

E-mail: _____ Best time of day to contact you: _____

This concludes the survey. Thank you for your time!

Please return your completed survey in the enclosed postage paid envelope addressed to:
ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061

Your responses will remain completely confidential. The address information printed to the right will ONLY be used to help identify areas with special interests.

1.2 TRUCK DIARY SURVEY – VEHICLE SHEET**SANDAG 2022 COMMERCIAL VEHICLE SURVEY
PART 1: VEHICLE INFORMATION**

Vehicle # _____ of _____ Participating

(Please fill out this form, even if the information requested has been provided elsewhere.)

Official Use	Vehicle ID #: _____	GPS#: _____	Location/Zone: _____	NAICS Code: _____	# Stops on Travel Day _____
---------------------	---------------------	-------------	----------------------	-------------------	-----------------------------

Travel Day: _____ **Total # Vehicles Owned/Available at this location:** _____
 Month / Day / Year

Company or Name of Owner (name on registration):**Address where this vehicle is normally garaged (or parked):**

(Street Address or Names of Nearest Intersecting Streets)

City _____ State _____ Zip Code _____

How would you describe the type of place where this company is located? (See "PLACE OPTIONS" codes below):

PLACE OPTIONS (CODES MATCH TRAVEL DIARY)		
1) Office Building (Non Government)	8) Airport	(15) Construction Site
(2) Government Office Building	(9) Intermodal Facility-Railroad	(16) Agriculture
(3) Retail / Shopping / Store	(10) Warehouse	(17) Mining
(4) Industrial / Manufacturing	(11) Truck Distribution Center	(18) Other (specify): _____
(5) Medical / Hospital / Dental	(12) Gas station	(99) Don't Know
(6) Education (K-12, College, Pre-K)	(13) Truck stop	
(7) Residential / Home	(14) Restaurant	

Vehicle Info: Make: _____ Model: _____ Year: _____

Was this vehicle rescheduled for another travel day because it did not go anywhere on the date it was originally scheduled? If the vehicle was rescheduled for any other reason than the lack of travel on the travel date originally assigned (e.g., someone forgot to do it), answer NO.

1) ☐ YES 2) ☐ NO**Was this vehicle used for commercial/business purposes on the day its travel diary was completed?**1) ☐ YES 2) ☐ NO**IF YES: What Was The
Primary Use for Vehicle:**

- 1) ☐ Cargo/Freight Transport Vehicle (used PRIMARILY to transport cargo - if majority of trips on travel day have cargo)
 2) ☐ Commercial Service Vehicle (PRIMARILY for non-cargo purposes – if majority of trips on travel day have zero cargo)
 3) ☐ Commercial Service and Cargo Delivery Vehicle (used for both service and cargo)

Vehicle Fuel Type: 1) ☐ Gasoline 2) ☐ Diesel 3) ☐ Propane 4) ☐ Natural Gas
 5) ☐ Electric 6) ☐ Gas/Electric Hybrid 9) ☐ Other (specify) _____

Estimated Vehicle MPG: _____ (If Vehicle FUEL TYPE = 1, 2, 3, 4)

Final SANDAG 2022 Commercial Vehicle Survey Appendix

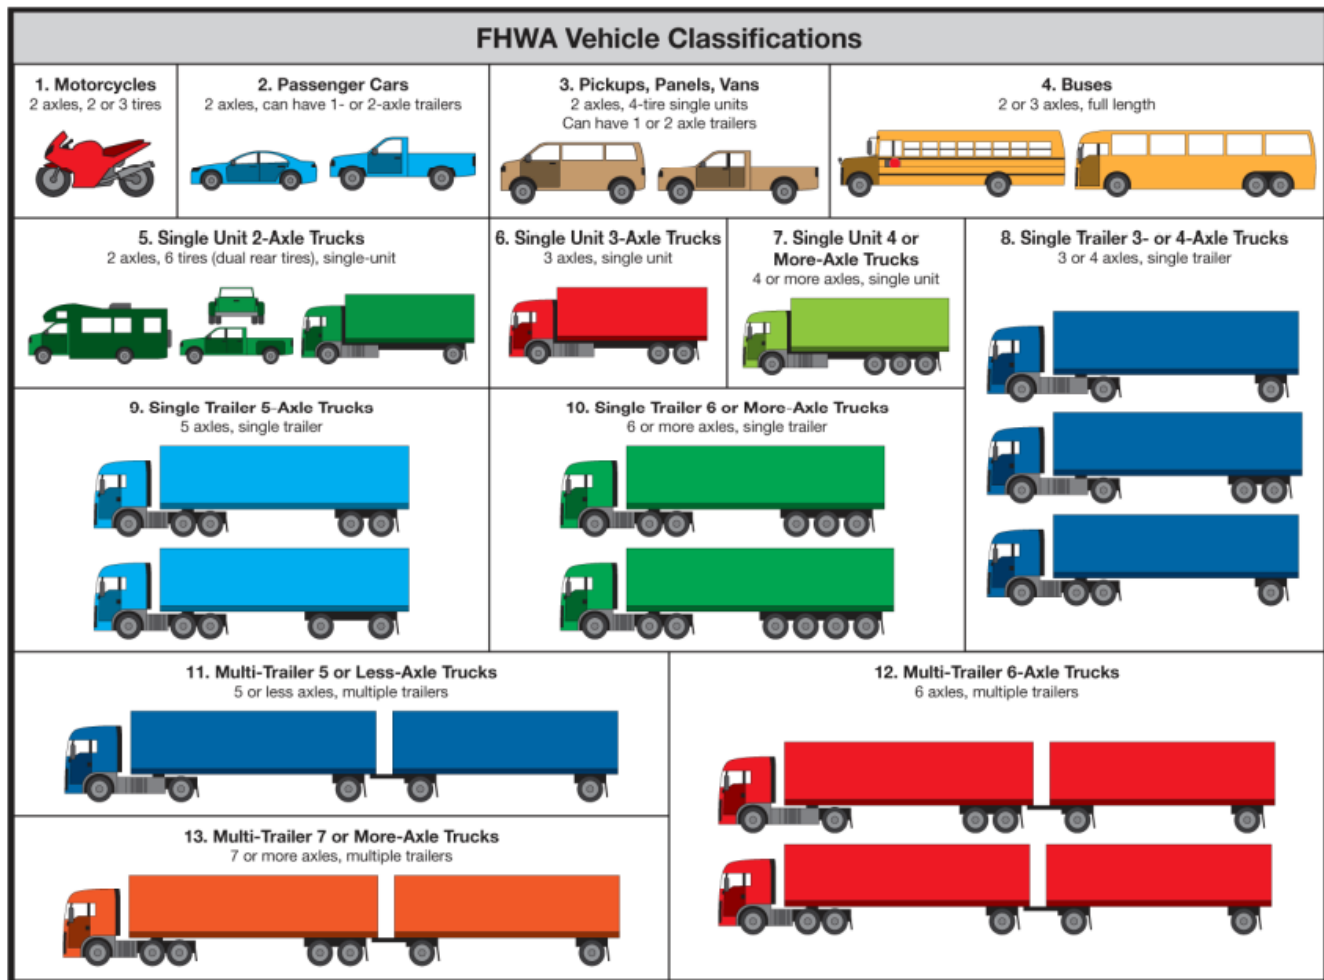

Estimated Miles per Electric Charge: _____ (If Vehicle FUEL TYPE = 5)

Gross Vehicle Weight (including trailer): _____ pounds

Vehicle Toll Transponder: 1) ☐ Yes 2) ☐ No 3) ☐ Not Sure

Vehicle Classification:

- | | |
|--|--|
| 1) <input type="checkbox"/> Passenger Car or Motorcycle (1/2 below) | 5) <input type="checkbox"/> Single Unit 2-axle (6 wheels) (5 below) |
| 2) <input type="checkbox"/> Pick-up Truck (4 wheels) (2 below) | 6) <input type="checkbox"/> Single Unit 3-axle (10 wheels) (6 below) |
| 3) <input type="checkbox"/> Van (Cargo/Minivan) (4 wheels) (3 below) | 7) <input type="checkbox"/> Single Unit 4-axle (14 wheels) (7 below) |
| 4) <input type="checkbox"/> Buses (4 below) | 8) <input type="checkbox"/> Semi (all Tractor-Trailer combinations) (8-12 below) |
| 9) <input type="checkbox"/> Other _____ | |

POST PROCESSING INSTRUCTIONS

ADD A NEW CLASS CODE (CLASS_SAMPLE GROUP_FINAL) TO THE DATABASE BASED ON THE VALUE REPORTED IN "VEHICLE CLASS" ABOVE

Vehicle Classification SAMPLE GROUP:

- 1) ☐ Light (if 1-3 selected in "vehicle class above")
- 2) ☐ Medium (if 4-7 selected in "vehicle class above") includes bus
- 3) ☐ Heavy (if 8-12 selected in "vehicle class above")

1.3 TRUCK DIARY SURVEY – TRIP SHEET

SANDAG 2022 COMMERCIAL VEHICLE SURVEY TRIP INFORMATION WORKSHEET

PART 1: DATE AND STARTING LOCATION FOR THIS VEHICLE'S TRAVEL DAY

1. On which date was travel completed (month/date/year)? _____ 2. What was the day of week? Mon Tues Wed Thurs

3. Was the place where this vehicle began travel today: ☐ Work / Base Location (Company address) ☐ Other Location – [answer 3a & 3b]

3a. How would you describe the type of place where this vehicle's travel began today? (See "PLACE OPTIONS" codes below): _____

3b. What is the address where this vehicle's travel began today? _____
(Street Address or Names of Nearest Intersecting Streets)

Where did you go? (Record location name & address, including city, state, zip) see EXAMPLE below If address unknown record nearest intersection, city, & state If returning to base of operations write "BASE"	Is this the Work/Base location for this vehicle?	What type of place is this? (See PLACE OPTIONS below)	What time did you arrive and depart this location? (Record exact times)	What activity are you doing at this location? (See ACTIVITY OPTIONS below)	If transporting cargo, what is the Cargo? (See Cargo Classifications below) If HAZMAT also enter placard #	If transporting cargo, record Cargo Weight (Pounds)
EXAMPLE: <i>Scripps Mercy Hospital</i> (will be hand printed) <i>4077 5th Ave San Diego, CA 92103</i>	<input type="checkbox"/> - Yes <input checked="" type="checkbox"/> - No	5	Arrive: <u>8:24</u> <input type="radio"/> am/pm Depart: <u>9:00</u> <input type="radio"/> am/pm	10	17 #1219	<u>100</u> in pounds
PLACE 1	<input type="checkbox"/> - Yes <input type="checkbox"/> - No		Arrive: _____ am/pm Depart: _____ am/pm			_____ in pounds
PLACE 2	<input type="checkbox"/> - Yes <input type="checkbox"/> - No		Arrive: _____ am/pm Depart: _____ am/pm			_____ in pounds
PLACE OPTIONS (How would you describe this location ?)			ACTIVITY OPTIONS (What were you doing at this location?)			
(1) Office Building (Non-Government) (2) Government Office Building (3) Military Base/Building (4) Grocery Store (5) Restaurant (6) Retail / Shopping (7) Industrial / Manufacturing (8) Medical / Hospital / Dental	(9) College/University (10) Education (K-12, Daycare, Pre-K) (11) Residential / Home (12) Airport (13) Intermodal Facility-Railroad (14) Warehouse (15) Truck Distribution Center (16) Gas station	(17) Vehicle Charging Term. (18) Truck stop (19) Construction Site (20) Agriculture (21) Other (specify): _____ (99) Don't Know	(1) Returning to Base Location (2) Vehicle Maintenance (fuel/charging, etc) (3) Driver Needs (lunch, restroom, etc) (4) Deadhead/Drop Trailer/Bobtail (5) Delivering cargo - (including grocery and restaurant deliveries) (6) Picking up cargo-(including grocery and restaurant pickups)	(7) Getting Government Related Services (8) Providing Installation / Maintenance / Repair Services (9) Making a sales call (10) Providing professional services (legal, medical, financial) (11) Shopping for Business (i.e. business/office supplies, etc) (88) Other Activity (specify): _____		

(City, State, Zip Code)

4. WHEN DID THIS VEHICLE INITIALLY DEPART ON ITS TRAVEL DAY? TIME: _____ am / pm

5. WHERE DID THIS VEHICLE GO DURING ITS TRAVEL DAY? (Record every place this vehicle goes, including brief stops like trips to the gas station or food breaks)

SANDAG 2022 COMMERCIAL VEHICLE SURVEY TRIP INFORMATION WORKSHEET (Continued)

5. WHERE DID THIS VEHICLE GO DURING ITS TRAVEL DAY? (Record every place this vehicle goes, including brief stops like trips to the gas station or food breaks)

Where did you go? (Record location name & address, including city, state, zip) see EXAMPLE below If address unknown record nearest intersection, city, & state If returning to base of operations write "BASE"	Is this the Work/Base location for this vehicle?	What type of place is this? (See PLACE OPTIONS below)	What time did you arrive and depart this location? (Record exact times)	What activity are you doing at this location? (See ACTIVITY OPTIONS below)	If transporting cargo, what is the Cargo? (See Cargo Classifications below) IF HAZMAT also enter placard #	IF transporting cargo , record Cargo Weight (Pounds)
PLACE 3	<input type="checkbox"/> - Yes <input type="checkbox"/> - No		Arrive: _____ am/pm Depart: _____ am/pm			_____ in pounds
PLACE 4	<input type="checkbox"/> - Yes <input type="checkbox"/> - No		Arrive: _____ am/pm Depart: _____ am/pm			_____ in pounds
PLACE 5	<input type="checkbox"/> - Yes <input type="checkbox"/> - No		Arrive: _____ am/pm Depart: _____ am/pm			_____ in pounds
PLACE 6	<input type="checkbox"/> - Yes <input type="checkbox"/> - No		Arrive: _____ am/pm Depart: _____ am/pm			_____ in pounds

Cargo Classifications

(01) Agriculture/Produce, Livestock, fertilizer, dirt, landscaping, etc.
 (02) Trees, sod, etc.
 (03) Fresh fish, seafood, etc.
 (04) Crude petroleum, natural gas, propane, metals, gypsum, ores, etc.
 (05) Assorted food products, etc.
 (06) Restaurant prepared meals
 specify: _____
 (07) Clothing, linens, etc.
 (08) Lumber, paper, cardboard, wood pulp, etc.

(09) Newspapers, magazines, books, etc.
 (10) Soaps, paints, household or industrial chemicals, etc.
 (11) Gasoline, etc.
 (12) Finished products of rubber, plastic or Styrofoam
 (13) Finished products of clay, concrete, glass or stone
 (14) Misc. products, such as machinery, appliances, furniture, etc.
 (15) Waste products including scrap and recyclable materials
 (16) U.S. mail, U.P.S., Federal Express, and other mixed cargo

(17) Hazardous chemicals and substances
 (18) Automobiles and other transport vehicles
 (19) Medical supplies
 (20) Empty (including empty shipping containers)
 (21) No cargo picked up or delivered
 (88) Cargo not falling within one of the above categories-
 (98) Prefer not to answer
 (99) Don't know

PLACE OPTIONS (How would you describe this location?)**ACTIVITY OPTIONS (What were you doing at this location?)**

Final SANDAG 2022 Commercial Vehicle Survey Appendix

(1) Office Building (Non-Government)	(9) College/University	(17) Vehicle Charging Term.	(1) Returning to Base Location	(7) Getting Government Related Services
(2) Government Office Building	(10) Education (K-12, Daycare, Pre-K)	(18) Truck stop	(2) Vehicle Maintenance (fuel/charging, etc	(8) Providing Installation / Maintenance / Repair Services

FIGURE 13: SURVEY SCREENSHOT---IF YOU RECEIVED A PIN FOR THIS SURVEY

The screenshot shows the 'Address Confirmation' step of the survey. At the top, a blue header bar contains the text 'SANDAG Commercial Vehicle Survey'. Below this, a dark blue bar displays 'Address Confirmation'. The main content area is white and contains the following elements: a question 'Did you receive a PIN for this survey? That PIN would have five letters, e.g., ABCDK' with radio button options for 'Yes' (selected) and 'No'; a text input field for the PIN with a 'Find my Company' button; a text input field for the company name; an 'Address' label above a text input field; and three text input fields for 'City', 'State', and 'Zip'. At the bottom, there is a 'Back' button on the left and a 'Next' button on the right.

FIGURE 14: SURVEY SCREENSHOT---OPTIONAL TRAVEL DIARY

The screenshot shows the 'Optional Travel Diary' step of the survey. A blue header bar at the top contains 'SANDAG Commercial Vehicle Survey'. Below it, a dark blue bar displays 'OPTIONAL TRAVEL DIARY'. The main content area is white and includes: an introductory paragraph about the survey; a paragraph explaining the effort and compensation; a question 'Will you Participate?' with radio button options for 'YES' and 'NO'; and 'Back' and 'Submit' buttons at the bottom.

FIGURE 15: SURVEY SCREENSHOT---IF THE ORGANIZATION IS WILLING TO COMPLETE TRAVEL DIARY

This screenshot shows the 'Optional Travel Diary' step, specifically the contact information section. It features a blue header bar with 'SANDAG Commercial Vehicle Survey' and a dark blue bar with 'OPTIONAL TRAVEL DIARY'. The main content area is white and contains: the same introductory text as Figure 14; the 'Will you Participate?' question with 'YES' selected; and several text input fields for 'First Name', 'Last Name', 'Phone Number', 'Email', and 'Best time of day to contact you.' (with '12:00 AM' entered). There is also a text area for 'Additional Information' with the placeholder text 'Please provide any additional notes as needed'. 'Back' and 'Submit' buttons are located at the bottom.

FIGURE 16: SURVEY SCREENSHOT---THANK YOU PAGE

1.5 DATA VARIABLES BY SURVEY TYPE

This section documents each of the questions posed and data collected in the Establishment and Travel Diary Surveys. The tables show the type of survey, variables associated with each survey type, as well as a brief description of each variable. Table 1 shows a description of each variable collected in the Establishment Survey. Table 2 shows a description of each variable collected in the in the vehicle details portion of the Truck Travel Diary. Table 3 shows the trip diary variables from Truck Travel Diary Survey.

TABLE 1: ESTABLISHMENT SURVEY VARIABLES

Field Name	Description
company_id	Unique ID for Organization
company_name	Name of Organization
base_location_type	How would you BEST describe the type of activities your organization does at this location?
company_location_address	Organization Street Address
company_location_city	Organization Address City
company_location_state	Organization Address State
company_location_zipcode	Organization Address Zipcode
company_location_latitude	Organization Address Latitude
company_location_longitude	Organization Address Longitude
employees_fulltime_count	How many full-time personnel are employed at your site?
employees_parttime_count	How many part time personnel are employed at your site?
no_of_emp_work	On a typical weekday, how many employees (full & part-time) do you have working at this location?
total_telecommute_from_home	Approximately, how many of your employees work at home at least 1 day per week?
is_use_tnc	Does your company utilize TNC's (Transport Network Companies) such as Uber, UberEATS, Lyft, Doordash, etc. to deliver company goods customers?
no_of_deliveries	How many vehicles deliver cargo or services TO THIS LOCATION on an average weekday?
no_of_deliveries_pcsuvpu	How many of these {} vehicles are: passenger cars, sports utility vehicles or pickup trucks
no_of_deliveries_su	How many of these {} vehicles are: single unit vehicles
no_of_deliveries_cu	How many of these {} vehicles are: combo units (tractor/trailers)
per_of_deliveries_warehouse	Approximately what percentage of these vehicles that deliver cargo, packages, meals, or other services TO the location

vehicle_toll_trans_count	How many vehicles owned or leased by your company are equipped with toll transponders?

TABLE 2: VEHICLE SURVEY VARIABLES

Field Name	Description
id	Unique Vehicle ID number
company_id	ID of the Company
veh_make_other	Make of the Vehicle
vehicle_model	Model of the Vehicle
vehicle_year	Year of manufacturing of the Vehicle
vehicle_type	Vehicle Type (Primary Use)
vehicle_fuel_type	Fuel Your Vehicle Uses
vehicle_miles_per_gallon	Estimated Vehicle MPG

Final SANDAG 2022 Commercial Vehicle Survey Appendix

has_vehicle_transponder	Does the vehicle have toll transponders
vehicle_classification	Vehicle Classification (Heavy duty power units/tractors that sometimes travel without a trailer, should be classified as “Semi (all tractor-trailer combinations)”, not “Single Unit” truck.)
vehicle_weight	Gross Vehicle Weight in Pounds (including trailer, if applicable) Empty weight of the vehicle (including the empty trailer, if applicable, pounds)

TABLE 3: TRIP/TOUR DIARY VARIABLES

FIELD NAME	DESCRIPTION
id	Unique record ID
company_id	Unique Company ID
vehicle_id	Unique Id of the Vehicle
driver_id	Unique Id of the Driver
trip_number	Unique Id of the Trip
trip_load_status	On departure, was your vehicle.
trip_load_weight	Loaded weight of the Vehicle
activity_type	Type of Activity of the Trip
activity_type_other	Description of Other Activity Type
placetype	Which of the following best describes the type of place/industry at this location?
placetype_other	Description of Other Place Type
location_placename	Location Name
location_address	Location Address
location_city	Location City
location_state	Location State
location_zip	Location Zip
location_latitude	Location Latitude
location_longitude	Location Longitude
cargo_pickup	Select the cargo type
cargo_pickup_other	Description of Cargo Pickup Other
cargo_delivery	Select the cargo type
cargo_other_delivery	Description of Cargo Delivery Other
cargo_pu_weight	Weight of picked up cargo
cargo_do_weight	Weight of dropped off cargo
travel_date	Date of Travel
arrival_time	Time of Arrival
departure_time	What time did you leave?
used_other_vehicle	Did you use another vehicle?
participation_type	How respondent participated

2.0 APPENDIX B: TABULATIONS

This section contains tabulations for each question posed in the 2020 SANDAG commercial vehicle survey. The tabulations are grouped by questionnaire section:

1. CVS establishment survey: An Establishment survey that was designed to understand the number and type of commercial vehicles that are operated by business establishments in the region. During the data collection effort for this project 2,697 establishments provided information about their business and vehicle fleet operations.
2. CVS vehicles: The vehicle survey contains one record for each vehicle that participated in the truck diary survey and includes information about the vehicle and aggregate statistics about the vehicle's travel during the survey day. This set of questions was posed to respondents in the first section of the Truck Travel Diary Survey.
3. CVS trip information survey: The trip database contains a record for each stop reported in the truck diary survey, totaling 12,261 records from 1,543 vehicles that reported travel. Trip data were collected in the Truck Travel Diary Survey.
4. TNC vehicle survey: Same survey as CVS vehicles survey. A total of 411 TNC vehicles information was collected.
5. TNC trip survey: Same survey as CVS trip survey, totaling 5,664 records from 411 TNC vehicles.

The tabulations presented in the appendix are unweighted and unexpanded.

2.1 CVS ESTABLISHMENT SURVEY

TABLE 4. HOW WOULD YOU BEST DESCRIBE THE TYPE OF ACTIVITIES YOUR ORGANIZATION DOES AT THIS LOCATION?

	Percent	Count
Agriculture/Mining	3.6%	96
Manufacturing	9.2%	248
Industrial/Utilities	1.6%	42
Retail	10.2%	275
Wholesale	8.5%	229
Construction	9.4%	254
Transportation	4.9%	132
Info/Finance/Insurance/Real Estate/Professional services	15.8%	427
Education/Other public services	12.8%	344
Medical/Health Services	14.4%	388
Leisure/Accommodations and Food	9.7%	262
Total	100.0%	2697

TABLE 5. HOW MANY FULL-TIME EMPLOYEES DO YOU HAVE AT THE LOCATION WHERE YOU WORK?

	Percent	Count
0	2.7%	72
1-5	48.4%	1306
6-10	19.2%	517
More than 10	29.7%	802
Total	100.0%	2697

TABLE 6. HOW MANY PART-TIME EMPLOYEES DO YOU HAVE AT THE LOCATION WHERE YOU WORK?

	Percent	Count
0	55.7%	1502

3.0 APPENDIX C: DATA WEIGHTING AND EXPANSION MEMO

Feb 22, 2023

Subject: Technical Memorandum Documenting the Data Expansion/Weighting Plan for the SANDAG 2022 Commercial Vehicle Travel Diary (Revision 4) February 22, 2023

This memorandum is being submitted to document the process the ETC Institute Team used to develop the weight factors that were used to expand the data from SANDAG's 2022 Commercial Vehicle Survey.

Step 1: Gathering Data About the Number of Establishments in the SANDAG Region

ETC Institute gathered establishment data from two sources to estimate the number of establishments in the SANDAG region. The **first data source**, which was considered the most reliable, was the San Diego County Business Pattern data from 2019. San Diego County estimated that there were a total of 92,564 establishments in the County. Table 1a below shows the estimated number of establishments by industry and size according to San Diego County's estimates.

Table 1a: Estimated Number of Commercial Establishments in the SANDAG Region Based on Data Provided By San Diego County				
Totals Are from County Business Pattern survey data for San Diego County in 2019				
GROUP	NAICS	NUMBER OF EMPLOYEES		Total
		0-9 Employees	10+ Employees	
1. Agriculture/Mining	11, 21	152	22	174
2. Manufacturing	31-33	3,243	2,036	5,279
3. Industrial/Utilities	22	80	37	117
4. Retail	44, 45	8,006	3,906	11,912
5. Wholesale	42	3,291	1,040	4,331
6. Construction	23	5,972	1,550	7,522
7. Transportation	48, 49	1,491	574	2,065
8. Info/FIRE/Professional services	51-55	24,119	4,476	28,595
9. Education/Public/Other services	Only 56, 61, 81	10,109	3,013	13,122
10. Medical/Health Services	62	7,561	2,501	10,062
11. Leisure/Accommodations and Food	71, 72	4,450	4,935	9,385
Total		68,474	24,090	92,564

ETC Institute also acquired information from the California Economic Development Department (CA EDD). The estimates from the CA EDD are shown below. Excluding "non-classified" records, the CA EDD estimated that there were 115,679 establishments in the SANDAG planning area in 2020 as shown in Table 1b below.

Table 1b: Estimated Number of Commercial Establishments in the SANDAG Region Based on Data Provided By the California Economic Development Department				
Totals are from data provided by CA EDD (California Economic Development Department) vintage 2020				
GROUP	NAICS	NUMBER OF EMPLOYEES		Total
		0-9 Employees	10+ Employees	
1. Agriculture/Mining	11, 21	515	153	668
2. Manufacturing	31-33	2,203	1,291	3,494
3. Industrial/Utilities	22	149	116	265
4. Retail	44, 45	6,242	2,637	8,879
5. Wholesale	42	3,419	939	4,358
6. Construction	23	6,352	1,622	7,974
7. Transportation	48, 49	1,250	418	1,668
8. Info/FIRE/Professional services	51-55	24,958	4,144	29,102
9. Education/Public/Other services	56, 61, 81, 92	12,722	3,453	16,175
10. Medical/Health Services	62	31,706	2,307	34,013
11. Leisure/Accommodations and Food	71, 72	5,034	4,049	9,083
Total		94,550	21,129	115,679

Since there were significant differences in the estimates between the two sources, ETC Institute created a “Most Likely” based on the average of the two estimates. For industries that were only included in the CA EDD database, ETC Institute used the CA EDD data. The “most likely” distribution of commercial establishments in the SANDAG Region is shown in the table 1c below.

Table 1c: Most Likely Estimate for the Number of Commercial Establishments in the SANDAG Region (average of data in Tables 1a and 1b)				
GROUP	NAICS	NUMBER OF EMPLOYEES		Total
		0-9 Employees	10+ Employees	
1. Agriculture/Mining	11, 21	334	88	421
2. Manufacturing	31-33	2,723	1,664	4,387
3. Industrial/Utilities	22	115	77	191
4. Retail	44, 45	7,124	3,272	10,396
5. Wholesale	42	3,355	990	4,345
6. Construction	23	6,162	1,586	7,748
7. Transportation	48, 49	1,371	496	1,867
8. Info/FIRE/Professional services	51-55	24,539	4,310	28,849
9. Education/Public/Other services	56, 61, 81, 92	11,416	3,233	14,649
10. Medical/Health Services	62	19,634	2,404	22,038
11. Leisure/Accommodations and Food	71, 72	4,742	4,492	9,234
Total		81,512	22,610	104,122

Step 2: Calculating the Mean Number of Vehicles Per Establishment by Industry, Size and Vehicle Type

The next step in the process involved calculating the mean number of vehicles per establishment based on the industry and size of the establishments for three vehicle types.

ETC Institute administered an establishment survey to 2,697 commercial establishments in the SANDAG region between June 2022 and October 2022. As part of the survey, a representative from each establishment was asked to provide information about all vehicles owned or leased by the establishment along with all vehicles that were not owned/leased that were used by the establishment, such as personally owned vehicles that may be used by employees in lieu of a company provided vehicle to do their job (e.g., a pizza delivery driver might use a personally owned car to deliver pizzas for a pizza restaurant). This establishment survey is the source that ETC Institute used to estimate the average number of vehicles per commercial establishment in the region.

The distribution of the completed establishment surveys by size and industry is provided in Table 2 below. ETC Institute's goal was to obtain a statistically representative sample from at least 30 establishments in each cell of the sampling plan. This was accomplished, with the exception of Group 3 (Industrial/Utilities, NAICS 22). Although ETC Institute did not complete 30 surveys with Group 3, ETC Institute completed surveys with 42 of the 191 Industrial/Utility companies in Group 3 or 22% of the establishments from this industry in the region. For this reason, ETC did not aggregate data in any of the cells shown below for the purposes of assessing the number of vehicles per establishment.

Table 2: Number of Completed Establishment Surveys By Industry and Type					
GROUP	NAICS	NUMBER OF EMPLOYEES		Total	% of industry Group Surveyed
		0-9 Employees	10+ Employees		
1. Agriculture/Mining	11, 21	61	35	96	22.8%
2. Manufacturing	31-33	122	126	248	7.7%
3. Industrial/Utilities	22	16	26	42	22.0%
4. Retail	44, 45	147	128	275	3.0%
5. Wholesale	42	138	91	229	5.3%
6. Construction	23	146	108	254	3.3%
7. Transportation	48, 49	81	51	132	7.6%
8. Info/FIRE/Professional services	51-55	302	125	427	1.5%
9. Education/Public/Other services	56, 61, 81, 92	224	120	344	2.1%
10. Medical/Health Services	62	223	165	388	1.8%
11. Leisure/Accommodations and Food	71, 72	134	128	262	2.8%
Total		1,594	1,103	2,697	2.6%

The mean (or average) number of vehicles per establishment are provided for three types of vehicles on the following pages:

- Light Commercial Vehicles (LCV) – cars, pickups, vans
- Single Unit Trucks (SUT) – large trucks that are not towing other vehicles, including buses
- Multi Unit Trucks (MUT) – tractor-trailers and other large trucks that tow other vehicles

Step 3a: Estimating the Mean Number of LCVs (Light Commercial Vehicles) Per Establishment in the SANDAG Region.

Initial Estimate for the Mean Number of LCVs Per Establishment. Based on the results of the 2,697 organizations that completed the establishment survey, ETC Institute was able to estimate the mean number of LCVs by industry type and size. The number of completed surveys for these estimates ranged from a low of 16 respondents from Group 3 as noted previously (Table 2) to a high of 302 respondents from Group 8 (Info/FIRE/Professional Services). The mean number of LCVs per establishment is shown in the table below. Industrial/utility companies (Group 3) with 10 or more employees had the most LCVs per establishment. Retail companies (Group 4) with less than 10 employees had the least LCVs per establishment.

Table 3a-1: Mean Number of LCVs by Size and Industry (N=2,697 establishment surveys)				
GROUP	NAICS	Mean # of LCVs by Size		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.80	2.14	1.29
2. Manufacturing	31-33	0.58	1.72	1.16
3. Industrial/Utilities	22	1.06	10.62	6.98
4. Retail	44, 45	0.45	0.88	0.65
5. Wholesale	42	0.88	3.26	1.83
6. Construction	23	1.46	4.90	2.92
7. Transportation	48, 49	1.22	9.02	4.23
8. Info/FIRE/Professional services	51-55	0.67	4.22	1.71
9. Education/Public/Other services	56, 61, 81, 92	0.73	10.18	4.03
10. Medical/Health Services	62	0.74	2.96	1.69
11. Leisure/Accommodations and Food	71, 72	0.69	1.23	0.95

Revised Estimate for Mean LCVs Per Establishment. In order to ensure that outliers did not cause ETC Institute to over- or under-estimate the number of vehicles in any given cell, ETC Institute recalculated the mean rating excluding the outliers in each cell. Outliers were excluded if the quantity of vehicles reported was more than two standard deviations from the mean, which ensures the Revised Mean shown in Table 3a-2 below is based on records that were all within 95% of the mean.

Table 3a-2: REVISED Mean Number of LCVs by Size and Industry (N=2,498 establishment surveys; a total of 199 outliers were excluded)				
GROUP	NAICS	Mean # of LCVs by Size (excluding outliers with 95% around mean)		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.60	2.14	1.00
2. Manufacturing	31-33	0.38	1.15	0.63
3. Industrial/Utilities	22	0.79	7.68	4.00
4. Retail	44, 45	0.38	0.46	0.40
5. Wholesale	42	0.55	1.65	0.93
6. Construction	23	1.16	3.67	2.07
7. Transportation	48, 49	0.79	5.36	2.47
8. Info/FIRE/Professional services	51-55	0.51	2.86	0.95
9. Education/Public/Other services	56, 61, 81, 92	0.51	5.25	1.91
10. Medical/Health Services	62	0.41	1.88	0.80
11. Leisure/Accommodations and Food	71, 72	0.55	0.49	0.58

Final SANDAG 2022 Commercial Vehicle Survey Appendix

The biggest change in the mean after the outliers were excluded involved the decrease in the mean number of LCV vehicles estimated for Group 9 (Education and Public Services). The mean number of LCVs dropped from 10.18 before the outliers were excluded (see Table 3a-1) to 5.25 after they were excluded (see Table 3a-2). The primary reason for the decrease was the exclusion of 3 establishments in this group that reported more than 100 LCVs.

Step 3b: Estimating the Mean Number of SUTs (Single Unit Trucks) Per Establishment in the SANDAG Region.

Initial Estimate for the Mean Number of SUTs Per Establishment. Based on the results of the 2,697 organizations that completed the establishment survey, ETC Institute was able to estimate the mean number of SUTs by industry type and size. The mean number of SUT's per establishment is shown in the table below. Education/Public Service organizations (Group 9) with 10 or more employees had the most SUTs per establishment. Industrial/Utility companies (Group 3) with less than 10 employees had the least SUTs per establishment.

Table 3b-1: Mean Number of SUTs by Size and Industry (N=2,697 establishment surveys)

GROUP	NAICS	Mean # of SUTs by Size		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.13	0.69	0.33
2. Manufacturing	31-33	0.35	0.72	0.54
3. Industrial/Utilities	22	0.06	2.69	1.69
4. Retail	44, 45	0.50	0.63	0.56
5. Wholesale	42	0.49	0.80	0.62
6. Construction	23	0.40	1.77	0.98
7. Transportation	48, 49	0.41	2.84	1.35
8. Info/FIRE/Professional services	51-55	0.47	2.17	0.96
9. Education/Public/Other services	56, 61, 81, 92	0.20	5.68	2.11
10. Medical/Health Services	62	0.22	0.39	0.29
11. Leisure/Accommodations and Food	71, 72	0.10	0.20	0.15

Revised Estimate for Mean SUTs Per Establishment. In order to ensure that outliers did not cause ETC Institute to over- or under-estimate the number of vehicles in any given cell, ETC Institute recalculated the mean rating excluding the outliers in each cell. Outliers were excluded if the quantity of vehicles reported was more than two standard deviations from the mean, which ensures the Revised Mean shown in Table 3b-2 on the following page is based on records that were all within 95% of the mean.

Table 3b-2: REVISED Mean Number of SUTs by Size and Industry (N=2,549 establishment surveys; a total of 148 outliers were excluded)

GROUP	Mean # of SUTs by Size (excluding outliers with 90% around mean)			
	NAICS	0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.13	0.53	0.23
2. Manufacturing	31-33	0.19	0.43	0.27
3. Industrial/Utilities	22	0.06	1.27	0.76
4. Retail	44, 45	0.31	0.23	0.30
5. Wholesale	42	0.31	0.42	0.42
6. Construction	23	0.19	1.06	0.56
7. Transportation	48, 49	0.22	1.24	0.50
8. Info/FIRE/Professional services	51-55	0.27	0.63	0.43
9. Education/Public/Other services	56, 61, 81, 92	0.05	1.56	0.66
10. Medical/Health Services	62	0.06	0.18	0.08
11. Leisure/Accommodations and Food	71, 72	0.07	0.05	0.08

The biggest change in the mean after the outliers were excluded involved the decrease in the mean number of SUTs estimated for Group 9 (Education and Public Services) with 10 or more employees. Two of the 120 organizations in this cell reported 400 and 100 SUTs, respectively. The next largest number of SUTs reported among the 120 respondents in this cell was 30, which is the reason the 100 and 400 counts were excluded as outliers.

Step 3c: Estimating the Mean Number of MUTs (Multi Unit Trucks) Per Establishment in the SANDAG Region.

Initial Estimate for the Mean Number of MUTs Per Establishment. Based on the results of the 2,697 organizations that completed the establishment survey, ETC Institute was able to estimate the mean number of MUTs by industry type and size. The mean number of SUTs per establishment is shown in the table at the top of the following page. Transportation organizations (Group 7) with 10 or more employees had the most MUTs per establishment. Medical/Health service organizations (Group 10) with less than 10 employees had the least MUTs per establishment.

Table 3c-1: Mean Number of MUTs by Size and Industry (N=2,697 establishment surveys)				
GROUP	NAICS	Mean # of MUTs by Size		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.08	0.74	0.32
2. Manufacturing	31-33	0.21	0.37	0.29
3. Industrial/Utilities	22	0.44	1.92	1.36
4. Retail	44, 45	0.27	0.37	0.32
5. Wholesale	42	0.30	0.99	0.57
6. Construction	23	1.01	3.87	2.23
7. Transportation	48, 49	0.27	5.69	2.36
8. Info/FIRE/Professional services	51-55	0.08	0.71	0.26
9. Education/Public/Other services	56, 61, 81, 92	0.06	2.29	0.84
10. Medical/Health Services	62	0.00	0.02	0.01
11. Leisure/Accommodations and Food	71, 72	0.01	0.03	0.02

Revised Estimate for Mean MUTs Per Establishment. In order to ensure that outliers did not cause ETC Institute to over- or under-estimate the number of vehicles in any given cell, ETC Institute recalculated the mean rating excluding the outliers in each cell. Outliers were excluded if the quantity of vehicles reported was more than two standard deviations from the mean, which ensures the Revised Mean shown in Table 3c-2 below is based on records that were all within 95% of the mean.

Table 3c-2: REVISED Mean Number of MUTs by Size and Industry (N=2,572 establishment surveys; a total of 125 outliers were excluded)				
GROUP	NAICS	Mean # of MUTs by Size (excluding outliers with 90% around mean)		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.08	0.52	0.18
2. Manufacturing	31-33	0.13	0.24	0.14
3. Industrial/Utilities	22	0.29	1.18	0.72
4. Retail	44, 45	0.14	0.12	0.13
5. Wholesale	42	0.08	0.53	0.24
6. Construction	23	0.72	3.00	1.64
7. Transportation	48, 49	0.08	3.84	0.84
8. Info/FIRE/Professional services	51-55	0.04	0.11	0.08
9. Education/Public/Other services	56, 61, 81, 92	0.02	0.36	0.12
10. Medical/Health Services	62	0.00	0.01	0.01
11. Leisure/Accommodations and Food	71, 72	0.01	0.02	0.01

The biggest change in the mean after the outliers were excluded involved the decrease in the mean number of MUTs estimated for Group 7 (Transportation) with 10 or more employees. Just one organization in this cell reported more than 100 MUTs. The next largest number of MUTs reported among the 132 respondents in this cell was 30, which is the reason the one record was excluded as an outlier.

Step 4: Estimating the Number of Commercial Vehicles in the Region

Since accurate data regarding the number of commercial establishments in the SANDAG region was difficult to acquire and the data from 2020 is likely to contain anomalies that were caused by the Pandemic, ETC Institute developed an Upper, Most Likely, and Lower estimate for each of the three types of vehicles (LCVs, SUTs, and MUTs) for which sampling goals were established for the survey. The methodology used to develop these estimates is described below.

Upper Estimate Methodology: The UPPER estimate for the number of commercial vehicles in the region used the largest of the two estimates that were obtained for the number of establishments in the region. In other words, if the estimate from San Diego County (Table 1a) for the number of establishments in one or more cells of the sampling plan was greater than the number estimated by the CA EDD (Table 1b), the San Diego County estimate was used. If the estimate from the CA EDD was larger, the estimate from the CA EDD was used. Table 4a-1 shows the number of establishments by industry and size that was used for the Upper estimate. This Upper estimate is 122,407 establishments in the region.

Table 4a-1: UPPER Estimate for the # of Commercial Establishments in the SANDAG Region				
The counts in this worksheet use the estimate that was highest for each cell based the data from San Diego County (Table 1a) or the CA EDD (Table 1b)				
Cells in Blue Use Data from CA EDD		NUMBER OF EMPLOYEES		
GROUP	NAICS	0-9 Employees	10+ Employees	Total
1. Agriculture/Mining	11, 21	515	153	668
2. Manufacturing	31-33	3,243	2,036	5,279
3. Industrial/Utilities	22	149	116	265
4. Retail	44, 45	8,006	3,906	11,912
5. Wholesale	42	3,419	1,040	4,459
6. Construction	23	6,352	1,622	7,974
7. Transportation	48, 49	1491	574	2,065
8. Info/FIRE/Professional services	51-55	24,958	4,476	29,434
9. Education/Public/Other services	56, 61, 81, 92	12,722	3,453	16,175
10. Medical/Health Services	62	31,706	2,501	34,207
11. Leisure/Accommodations and Food	71, 72	5,034	4,935	9,969
Total		97,595	24,812	122,407

In addition to using the larger estimate for the number of establishments in the region, the Upper Estimate for the Number of Vehicles in the region did NOT exclude outliers. So, the UPPER estimates that are shown on the following pages for the number LCVs, SUTs, and MUTs include outliers in the calculation of the mean number of vehicles per establishment.

Most Likely Estimate Methodology. The MOST LIKELY estimate was previously described on page 2 and the distribution is shown in Table 1-c. The MOST LIKELY estimate is 104,122 establishments in the region. In the Most Likely Estimate for the Number of Vehicles in the region uses the mean number of vehicles per establishment as described in Step 3 of this memorandum (outliers were NOT excluded). To avoid confusion based on the sequential number of the tables, Table 4a-2 has also been provided. It contains the same information that is provided in Table 1-c, but it is being provided again so the numbering of tables stays in sequence with the data in Tables 4a-1 (Upper Estimate) and 4a-3 (Lower Estimate) on the following page.

Table 4a-2: MOST LIKELY Estimate for the # of Commercial Establishments in the SANDAG Region				
These counts are the same as the ones shown in Table 1c				
GROUP	NAICS	NUMBER OF EMPLOYEES		Total
		0-9 Employees	10+ Employees	
1. Agriculture/Mining	11, 21	334	88	421
2. Manufacturing	31-33	2,723	1,664	4,387
3. Industrial/Utilities	22	115	77	191
4. Retail	44, 45	7,124	3,272	10,396
5. Wholesale	42	3,355	990	4,345
6. Construction	23	6,162	1,586	7,748
7. Transportation	48, 49	1,371	496	1,867
8. Info/FIRE/Professional services	51-55	24,539	4,310	28,849
9. Education/Public/Other services	56, 61, 81, 92	11,416	3,233	14,649
10. Medical/Health Services	62	19,634	2,404	22,038
11. Leisure/Accommodations and Food	71, 72	4,742	4,492	9,234
	Total	81,512	22,610	104,122

Lower Estimate Methodology: The LOWER estimate for the number of commercial vehicles in the region used the smallest of the two estimates that were obtained for the number of establishments in the region. In other words, if the estimate from San Diego County (Table 1a) for the number of establishments in one or more cells of the sampling plan was less than the number estimated by the CA EDD (Table 1b), the San Diego County estimate was used. If the estimate from the CA EDD was smaller, the estimate from the CA EDD was used. Table 4a-3 shows the number of establishments by industry and size that was used for the Lower estimate. This Lower estimate is 85,836 establishments in the region.

Table 4a-3: LOWER Estimate for the # of Commercial Establishments in the SANDAG Region				
The counts in this worksheet use the estimate that was highest for each cell based the data from San Diego County (Table 1a) or Cells in Blue Use Data from CA EDD				
GROUP	NAICS	NUMBER OF EMPLOYEES		Total
		0-9 Employees	10+ Employees	
1. Agriculture/Mining	11, 21	152	22	174
2. Manufacturing	31-33	2203	1291	3,494
3. Industrial/Utilities	22	80	37	117
4. Retail	44, 45	6242	2637	8,879
5. Wholesale	42	3291	939	4,230
6. Construction	23	5972	1550	7,522
7. Transportation	48, 49	1250	418	1,668
8. Info/FIRE/Professional services	51-55	24119	4144	28,263
9. Education/Public/Other services	56, 61, 81, 92	10109	3013	13,122
10. Medical/Health Services	62	7561	2,307	9,868
11. Leisure/Accommodations and Food	71, 72	4450	4,049	8,499
	Total	65,429	20,407	85,836

In addition to using the smallest estimate for the number of establishments in the region, the Lower Estimate for the Number of Vehicles in the region used the REVISED mean number of vehicles per establishment as described in Step 3 of this memorandum. As described in Step 3, outliers were excluded in the calculation of the REVISED mean.

NOTE ABOUT TABLE NUMBERING:

A set of 4b, 5b, and 6b series tables are included in the Excel file that contains the commercial vehicle survey data. This is the reason the numbering of the Tables jumps from 4a-1 to 4c-1, 5a-1 to 5c-1, and 6a-1 to 6c-1. The 4b, 5b, and 6b series tables do not add to the analysis presented in this document, but the numbering on the tables was not change so that someone reading this document can easily find the tables in this report in the commercial vehicle database.]

This also applies to the “e” series tables provided later in the report, which is the reason the table numbers jumps from 4-d-1, 5-d-1, and 6-d-1 to an “f” series of tables. The “e” series of table do not add to the analysis in this document, but they provide placeholders in the Excel file that will help someone reviewing the expansion better understand the steps that were completed to expand the data.

Step 4a: Estimating the Number of LCVs in the Region

The estimated number of Light Commercial Vehicles (LCVs) in the SANDAG Region is shown in the following tables. Table 4c-1 shows the UPPER estimate for LCVs. These estimates are based on the mean number of vehicles per establishment shown in Table 3a-1 for which outliers are not excluded, multiplied by the upper estimate for the number of establishments in the region shown in Table 4a-1. For example, the mean number of LCVs for establishments with fewer than 10 employees in Group 1 (Agricultural/Mining) in Table 3a-1 was 0.80328 (rounded to 0.80 in the table). When this value is multiplied by the upper estimate of 515 establishments shown in Table 4a-1) the result was 413.6892 (rounded to 414 in the Table 4c-1 on the following page).

The Most Likely estimate in the following table uses the number of establishments in Table 1-c multiplied by the mean estimate for LCVs shown in Table 3a-1 (for which outliers were NOT excluded). The Lower Estimate uses the number of establishments in Table 4a-3 multiplied by the REVISED mean estimate for LCVs (for which outliers were excluded) shown in Table 3a-2.

Final SANDAG 2022 Commercial Vehicle Survey Appendix

Table 4c-1: UPPER Estimate of the Number of LCVs in the SANDAG REGION

GROUP	NAICS	Mean # of LCVs by Size		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	414	328	742

6. Construction	23	6,922	5,689	12,611
7. Transportation	48, 49	986	2,239	3,225
8. Info/FIRE/Professional services	51-55	12,404	11,855	24,260
9. Education/Public/Other services	56, 61, 81, 92	5,156	15,832	20,988
10. Medical/Health Services	62	3,130	4,335	7,465
11. Leisure/Accommodations and Food	71, 72	2,448	1,988	4,436
Total		36,220	46,511	82,731

Step 4b: Estimating the Number of SUTs in the Region

The estimated number of Single Unit Trucks (SUTs) in the SANDAG Region is shown in the following tables. Table 5c-1 shows the UPPER estimate for SUTs. These estimates are based on the mean number of vehicles per establishment shown in Table 3b-1 (for which outliers are not excluded) multiplied by the upper estimate for the number of establishments in the region shown in Table 4a-1. For example, the mean number of SUTs for establishments with fewer than 10 employees in Group 1 (Agricultural/Mining) in Table 3b-1 was 0.13115 (rounded to 0.13 in the table). When this value is applied to the upper estimate of 515 establishments in this same cell shown in Table 4a-1, the result was 67.54225 (rounded to 68 in Table 5c-1 below)

The Most Likely estimate in the following table uses the number of establishments in Table 1-c multiplied by the mean estimate for SUTs shown in Table 3b-1 (for which outliers are NOT excluded). The Lower Estimate uses the number of establishments in Table 4a-3 multiplied by the REVISED mean estimate for SUTs shown in Table 3b-2 (for which outliers were excluded).

Table 5b-1: Mean Number of SUTs by Size and Industry (N=2,697 establishment surveys)

These counts are the same as the ones shown in Table 3b-1		Mean # of SUTs by Size		
GROUP	NAICS	0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.13	0.69	0.33
2. Manufacturing	31-33	0.35	0.72	0.54
3. Industrial/Utilities	22	0.06	2.69	1.69
4. Retail	44, 45	0.50	0.63	0.56
5. Wholesale	42	0.49	0.80	0.62

11. Leisure/Accommodations and Food	71, 72	0.10	0.20	0.15

Table 5b-3: REVISED Mean Number of SUTs by Size and Industry (N=2,498 establishment surveys; a

These counts are the same as the ones shown in Table 3b-2

GROUP	Mean # of SUTs by Size (excluding outliers with 95% around mean)			
	NAICS	0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0.13	0.53	0.23
2. Manufacturing	31-33	0.19	0.43	0.27
3. Industrial/Utilities	22	0.06	1.27	0.76
4. Retail	44, 45	0.31	0.23	0.30
5. Wholesale	42	0.31	0.42	0.42
6. Construction	23	0.19	1.06	0.56
7. Transportation	48, 49	0.22	1.24	0.50
8. Info/FIRE/Professional services	51-55	0.27	0.63	0.43
9. Education/Public/Other services	56, 61, 81, 92	0.05	1.56	0.66
10. Medical/Health Services	62	0.06	0.18	0.08
11. Leisure/Accommodations and Food	71, 72	0.07	0.05	0.08

Step 4c: Estimating the Number of MUTs in the Region

The estimated number of Multi Unit Trucks (MUTs) in the SANDAG Region is shown in the following tables. Table 6c-1 (on the following page) shows the UPPER estimate for SUTs. These estimates are based on the mean number of vehicles per establishment shown in Table 3c-1 (for which outliers are not excluded) multiplied by the upper estimate for the number of establishments in the region shown in Table 4a-1. For example, the mean number of MUTs for establishments with fewer than 10 employees in Group 1 (Agricultural/Mining) in Table 3c-1 was 0.08197 (rounded to 0.08 in the table). When this value is applied to the upper estimate of 515 establishments in this same cell shown in Table 6a-1, the result was 42.2145 (rounded to 42 in the table).

The Most Likely estimate in the following table uses the number of establishments in Table 1-c multiplied by the mean estimate for MUTs shown in Table 3c-1 (for which outliers are NOT excluded). The Lower Estimate uses the number of establishments in Table 4a-3 multiplied by the REVISED mean estimate for MUTs shown in Table 3c-2 (for which outliers were excluded).

Final SANDAG 2022 Commercial Vehicle Survey Appendix

Table 6c-1: UPPER Estimate of the Number of MUTs in the SANDAG REGION

GROUP	Mean # of MUTs by Size			
	NAICS	0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	42	114	156

6. Construction	23	4,292	4,650	8,942
7. Transportation	48, 49	106	1,604	1,709
8. Info/FIRE/Professional services	51-55	915	460	1,375
9. Education/Public/Other services	56, 61, 81, 92	185	1,084	1,269
10. Medical/Health Services	62	34	14	48
11. Leisure/Accommodations and Food	71, 72	33	64	97
	Total	7,031	9,060	16,091

Step 5: Determining the Expansion Factors

The last step in the process was to develop the weighting factors for the commercial vehicles that participated in the survey. A weighting factor indicates how many vehicles each vehicle in the survey database represents among all commercial vehicles in the SANDAG Region. For example, a weighting factor of 70 would indicate that the vehicle that was surveyed represents 70 vehicles in the region.

Given the uncertainty about the number of commercial establishments in the SANDAG region, ETC Institute developed three weighting factors that have been applied to the vehicle and trip records in the commercial vehicle survey database:

- An UPPER weighting factor
- A MOST LIKELY weighting factor
- A LOWER weighting factor

Although three estimates are provided, **ETC Institute strongly recommends using the MOST LIKELY ESTIMATE as the primary data expansion weight factor.** The only reason SANDAG should use weight factors from the LOWER or UPPER estimates would be if new information becomes available that suggests the actual number of vehicles in a particular industry is greater or less than the number estimated in the MOST LIKELY ESTIMATE.

Step 5a: Aggregating Cells for Data Expansion

A total of 1,751 vehicles participated in the commercial diary/travel app portion of the commercial vehicle survey, which involved having the vehicle's driver(s) track all the locations and activities for the vehicle for at least one 24-hour period. A total of 1,303 LCVs, 228 SUTs, and 220 MUTs participated in the commercial vehicle travel survey. The tables below show the number of vehicles that participated by type of vehicle, industry type, and industry size for each of the cells in the sampling plan. Values in highlighted cells were aggregated for the development of weight factors. For example, for LCVs, all cells shown in Table 4d-1 had at least 15 vehicles complete the commercial vehicle travel survey with the exception of establishments with less than 10 employees in Group 3. For this reason, the cells highlighted in Yellow were combined for the purpose of creating statistically significant weight factors.

Table 4d-1: Number of Completed Commerical Vehicle Survey With LCVs by Industry Type and Size				
GROUP	NAICS	# of LCVs by Size		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	18	20	38
2. Manufacturing	31-33	34	49	83
3. Industrial/Utilities	22	5	59	64
4. Retail	44, 45	43	54	97
5. Wholesale	42	45	64	109
6. Construction	23	77	126	203
7. Transportation	48, 49	31	70	101
8. Info/FIRE/Professional services	51-55	112	108	220
9. Education/Public/Other services	56, 61, 81, 92	47	137	184
10. Medical/Health Services	62	51	71	122
11. Leisure/Accommodations and Food	71, 72	42	40	82
Total		505	798	1,303

Table 5d-1 shows the distribution of completed SUT commercial vehicle travel surveys. The cells with the same color shading were combined for the purpose of creating weighting factors. Although ETC Institute had originally planned to collapse the cells more aggressively, this was not required. The robustness of the establishment survey (which generated very accurate estimates of the mean number of vehicles per establishment) along with distribution of the completed commercial vehicles surveys by industry limited the amount of collapsing that was required.

Table 5d-1: Number of Completed Commerical Vehicle Survey With SUTs by Industry Type and Size				
GROUP	NAICS	# of SUTs by Size		
		0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining	11, 21	0	8	8
2. Manufacturing	31-33	5	10	15
3. Industrial/Utilities	22	0	15	15
4. Retail - merged with Group 11	44, 45	11	6	17
5. Wholesale	42	9	15	24
6. Construction	23	9	23	32
7. Transportation	48, 49	12	30	42
8. Info/FIRE/Professional services - merged with Group 10	51-55	4	17	21
9. Education/Public/Other services	56, 61, 81, 92	7	23	30
10. Medical/Health Services - Merged with Group 8	62	13	9	22
11. Leisure/Accommodations and Food - merged w. Group 4	71, 72	2	0	2
Total		72	156	228

Table 6d-1 shows the distribution of completed MUT commercial vehicle travel surveys. The cells with the same color shading were combined for the purpose of creating weighting factors. Since MUTs are not widely used by all industries, more aggregation was need for the development of weighting factors for MUTs. The Construction (Group 6) and Transportation (Group 7) industries were not combined with other industries.

Table 6d-1: Number of Completed Commerical Vehicle Survey With MUTs by Industry Type and Size				
# of MUTs by Size				
GROUP	NAICS	0-9 Employees	10+ Employees	All Sizes
1. Agriculture/Mining - combined with groups 2, 3, 8, 9	11, 21	2	3	5
2. Manufacturing - combined with groups 1, 3, 8, 9	31-33	0	22	22

11. Leisure/Accommodations & Food - w/groups 4, 5, 10	71, 72	0	0	0
Total		60	160	220

Step 5b: Calculating LCV Expansion Factors

The expansion factors for LCVs were calculated by dividing the estimated number of LCVs from the UPPER, MOST LIKELY, and LOWER estimates by the number of commercial vehicle travel surveys that were completed in each cell of the sampling plan after aggregating that was described in Step 5a. The weight factors for LCVs in the survey database are shown below.

Table 4f-1: UPPER Estimate for LCV Weight Factors by Industry Type and Size			
# of LCVs by Size			
GROUP	NAICS	0-9 Employees	10+ Employees
1. Agriculture/Mining	11, 21	22.98	16.39
2. Manufacturing	31-33	55.51	71.56
3. Industrial/Utilities	22	21.71	
4. Retail	44, 45	83.59	63.29
5. Wholesale	42	66.62	53.04
6. Construction	23	120.35	63.05
7. Transportation	48, 49	58.78	73.96
8. Info/FIRE/Professional services	51-55	149.05	174.73
9. Education/Public/Other services	56, 61, 81, 92	198.18	256.45
10. Medical/Health Services	62	459.99	104.40
11. Leisure/Accommodations and Food	71, 72	83.18	151.33

Table 4f-2: MOST LIKELY Value for LCV Weight Factors by Industry Type and Size

GROUP	NAICS	# of LCVs by Size	
		0-9 Employees	10+ Employees
1. Agriculture/Mining	11, 21	14.88	9.38
2. Manufacturing	31-33	46.61	58.47
3. Industrial/Utilities	22	14.59	
4. Retail	44, 45	74.38	53.01
5. Wholesale	42	65.37	50.46
6. Construction	23	116.75	61.65
7. Transportation	48, 49	54.03	63.91
8. Info/FIRE/Professional services	51-55	146.55	168.25
9. Education/Public/Other services	56, 61, 81, 92	177.83	240.12
10. Medical/Health Services	62	284.84	100.35
11. Leisure/Accommodations and Food	71, 72	78.36	137.74

Table 4f-3: LOWER Estimate for LCV Weight Factors by Industry Type and Size

GROUP	NAICS	Mean # of LCVs by Size	
		0-9 Employees	10+ Employees
1. Agriculture/Mining	11, 21	5.07	2.36
2. Manufacturing	31-33	24.88	30.35

10. Medical/Health Services	62	61.37	61.06
11. Leisure/Accommodations and Food	71, 72	58.27	49.71

Step 5c: Calculating SUT Expansion Factors

The expansion factors for SUTs were calculated by dividing the estimated number of SUTs from the UPPER, MOST LIKELY, and LOWER estimates by the number of commercial vehicle travel surveys that were completed in each cell of the sampling plan after aggregating that was described in Step 5a. The weight factors for SUTs in the survey database are shown below.

Table 5f-1: UPPER Estimate for SUT Weight Factors by Industry Type and Size

10. Medical/Health Services - Merged with Group 8	62	232.03
11. Leisure/Accommodations and Food - merged w. Group 4	71, 72	159.67

Step 5d: Calculating MUT Expansion Factors

The expansion factors for MUTs were calculated by dividing the estimated number of MUTs from the UPPER, MOST LIKELY, and LOWER estimates by the number of commercial vehicle travel surveys that were completed in each cell of the sampling plan after aggregating that was described in Step 5a. The weight factors for MUTs in the survey database are shown on the following page.

Final SANDAG 2022 Commercial Vehicle Survey Appendix

Final Notes:

Use the Most Likely Weight Factor: Although ETC Institute developed three weight factors, SANDAG is encouraged to use the MOST LIKELY estimate for data analysis. The lower and upper estimates have been provided to give SANDAG a range in which to work that is reasonable given the current availability of data regarding the number of commercial vehicles in the region. If new (and perhaps more reliable) information becomes available, the weighting process can be redone in about two days using Tables 1-8 that ETC Institute has included as an addendum to the primary database.

Impact of Aggregating Cells for Weighting: The benefit of aggregating data for expansion is that it reduces the potential negative impact that unreasonably high expansion factors can have on the analysis of the data. The negative impact of aggregating cells is that it can cause shifts in the distribution of the sample toward industries that were over or under-represented. For example, industry Groups 4 (Retail) and 11 (Accommodations) were combined for the expansion of SUTs. This was done because only 2 SUTs were obtained from Industry Group 11. By combining Group 4 with Group 11 the number of SUTs represented in the survey database using the Most Likely Expansion Factor from Group 4 (retail establishments) increased by 230 and the number of vehicles represented in the database for Group 11 (Accommodations) decreased by the same amount.

Since industries with similar characteristics were combined, the overall impact of the aggregations should be limited, but the users of the data should be aware that the weighting could be responsible for unusual findings that could be industry specific.

If you have any questions, feel free to contact me any time.

Sincerely,

Christopher Tatham

4.0 APPENDIX D: SURVEY COLLATERAL

The San Diego Association of Governments (SANDAG) has partnered with ETC Institute to conduct a travel survey of commercial vehicles in the region. SANDAG is a regional planning agency that evaluates the regional transportation system, assesses future transportation needs, and directs investment towards projects that help achieve regional goals. The purpose of the survey is to better understand how commercial vehicles of varying size and business type affect travel and traffic patterns in the San Diego region.

ETC Institute is a survey research firm that has been hired to administer the survey for SANDAG. ETC Institute specializes in conducting this type of research and will ensure that the data is kept confidential.

Although your participation is voluntary, we hope you will consider making it a priority to participate in this 5-minute survey ensuring that organizations like yours are properly represented. The results collected during this very important survey will be used by all of our partners to help plan future transportation improvements in the region and to prioritize funding.

You may complete the survey by returning it in the postage-paid envelope that was provided, or you can complete it on-line by going to <https://SurveyURLhere.org> or by scanning the QR Code on the next page. **Thank you in advance for your support of this important effort!**

You can get more information about our study by going to SANDAG.org/Plans-for-the-Region/Transportation/Freight. Thank you in advance for your participation.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Cynthia Burke', is written over a light blue circular background.

Dr. Cynthia Burke

Senior Director, Data Science
